Hey Mr. DJ in case you forgot  
I came to get down  
So you better make it hot

'Cuz I can't jump around when I hear  
Groove killers  
When I'm out sitting down, it's a clear  
Time stealer

Give me a track  
With a phat kinda beat  
A groove so unique  
That it kicks me off my seat

'Cuz I won't find a mood with a new  
Spine chiller  
When the crowd hits the room, it's a true  
Crowd thriller

Freeze  
Better make it hot  
Music please  
Know the spot  
Play that funky music  
That is how we want it  
Floorfiller  
That is how we need it  
Floorfiller  
Something's out of order  
People in the corners  
Don't you see it  
Can't you feel it  
Floorfiller

Crank up the bass  
I can raise up the roof  
???  
Come and knock me with the groove  
Gotta boom  
Shake the room  
'Cuz we're all  
Heat seekers  
With a jam that can slam down the walls  
Mind freakers

Freeze  
Better make it hot  
Music please  
Know the spot  
Play that funky music  
That is how we want it  
Floorfiller  
That is how we need it  
Floorfiller  
Something's out of order  
People in the corners  
Don't you see it

Can't you feel it  
Floorfiller

You know by the sounds  
When the crowd is getting wild  
Hands swinging high  
Like a chopper in the sky

But a slow bump or flow ain't the way  
Floor freezer  
See the name of the game is to play  
Crowd pleaser

Freeze  
Better make it hot  
Music please  
Know the spot  
Play that funky music  
That is how we want it  
Floorfiller  
That is how we need it  
Floorfiller  
Something's out of order  
People in the corners  
Don't you see it  
Can't you feel it
