

A Weather, Small Potatoes

Kittens become cats
if you're not careful
you have to keep your eye on them

There was a time
when I
didn't know you
and there'll be a time like that again

And if we run as fast
as the earth moves
we'd be standing in one place

And if we shake as much
as California does
we'd be still less walking open

I can't believe you said
I couldn't love you anymore
Did you mean to no greater extent?
Or it's over now for sure

That's small potatoes
and I'm just
splitting hairs
That's small potatoes
and I'm just
splitting hairs

If I can't have this forever
I don't want it at all
If I can't have this forever
I don't want it at all

It's hard to watch all your friends dying
and say something to make them laugh
I'm sick of all my careful planning
breaking like a wine glass

It's hard to know which time's the time right one
when to set your clocks back
It's hard to know which time's the time right one
when to set your clocks back

I can't believe you said
There's nothing moving in this room
If your skin is this warm
then your heart's pumping blood

That's small potatoes
and I'm just
splitting hairs
That's small potatoes
and I'm just
splitting hairs

If I can't have this forever
I don't want it at all
If I can't have this forever
I don't want it at all
If I can't have this forever
I don't want it at all
If I can't have this forever
I don't want it at all

I don't want it

That's small potatoes
and I'm just
splitting hairs
That's small potatoes
