

A1, One In Love

Have you seen your sunset
Fade beneath a raincloud
Have you ever chased your dreams away
Did you ever think that
Life was just a highway
A never ending road of lonely days

There are times we cry
And reach out to the sky
For the strenght we need
To hold our head up high
ohhh

CHORUS

All we have to do now
Is love one another
Sisters and brothers
Can all live as one
And all we have to do now
Is show one another
We all need each other
To live as one in love

Have you seen a sunrise
Promising you daylight
When all you need is shelter from the storm
Did you ever feel like
Love was just an island
You can't survive on love on your own oohh

There are times when I
Need to reach inside
For the strenght I need
To hold my head up high

(Repeat Chorus)

If we push aside the blame
For the tears and the pain
You know love can rain
And the world will smile again

If we push aside the blame
For the tears and the pain
You know love can rain
And the world will smile again
The world will smile again

(Reapeat Chorus2x)

All we have to do now
Is love one another
Sisters and brothers
Can all live as one
And all we have to do now
Is show one another
We all need each other
To live as one in love..live as one in love
