

Aarni, Transcend Humanity

Abandon dualism and Indoeuropean ways
The world isn't black and white, only shades of grey.
Recognize the herd mentality in your thought processes
Deaden those drives stemming from biology.
Reality is a lie maintained by the Enemy who has written history to its liking.
You've been surrounded by propaganda
Signs of the decline of Western culture.

The revolting cult of the Nailed God is still alive and sick,
fitting for the necrotic human rats flaunting their deformities.
The Enemy has by its actions wilfully become subhuman
You'll purge society by abolishing it.
Storm the Enemy's offices and paint the walls with its blood.
Its teeth and veins make for nice necklaces and its intestines delicious sausages

Familiarize yourself with different weapon systems
Both physical and psychic, exoteric and esoteric.
The unexpected strike is the most devastating one.
Remember to maintain secrecy in everything you do.
We exist in a reality which we can explain rationally yet cannot understand;
Into this world we are thrown.
Don't follow any rules, including these.
