

Aaron Carter, A.C.'s Alien Nation

A.C., A.C.

Put your hands up

Put your hands up

Come on now

Shoulda known something was up when I got up

Something felt funny to me from the get up

Jumped up out of the bed with my head up

Guess who was staring at me? An ET or an alien

But he said his name was Steve

And he didn't look like what I thought he would be

He said "Aaron, will you help me please

Get your space suit, now come with me"

So we hopped up, in the space truck

It was all combed out with the system up

And I thought we were going to Mars, we made a left at the dipper

Never figured that we'd be here with a space majiggy

We got there and I read a sign, it said

"Welcome A.C., it's about time

Can you show us? Can you help us?

To dance tonight? 'Cause we have no rhythm

And we're running outta time"

Roll up to the rock where there's a universe of rhythm

And the beat don't stop in A.C.'s Alien Nation

Everyone is a cosmic freak and we only have one mission

Gotta move as one in A.C.'s Alien Nation

Listen up, here's what you got to do

You take one step up, don't try to take two

Make sure that you bump your fists like this

Nod like this and rock like this

'Cause everybody gotta learn this way

To a be together, stay together, know we gonna innovate

Moonwalk, star drop, a universal big top

Circus notice and you gotta know this

It really doesn't matter, if you're short or tall

Green or blue, fat or bald

'Cause I came with a groove and I'm proving it all

And around these parts we don't take no show

With the unity soon to be in the streets

You can see with your own eyes, how far we've come

'Cause we didn't have rhythm, now we've got some

It's just another day in the A.C. Nation

Roll up to the rock where there's a universe of rhythm

And the beat don't stop in A.C.'s Alien Nation

Everyone is a cosmic freak and we only have one mission

Gotta move as one in A.C.'s Alien Nation

You say you wanna dance

Well, here's your chance

Uh, uh, break it down, we gonna break it on down

Right, right to left

Right, right to left

Now, up and down and side to side

C'mon, what? We're gonna bounce like this

What? What? We gonna pump them fists, what?

A.C. baby, A.C. baby, that's where we at

C'mon, here we go, drop it down

4-3-2-1

Drop it down

Roll up to the rock where there's a universe of rhythm

And the beat don't stop in A.C.'s Alien Nation

Roll up to the rock where there's a universe of rhythm

And the beat don't stop in A.C.'s Alien Nation

Roll up to the rock where there's a universe of rhythm

And the beat don't stop in A.C.'s Alien Nation

Everyone is a cosmic freak and we only have one mission

Gotta move as one in A.C.'s Alien Nation
Roll up to the rock where there's a universe of rhythm
And the beat don't stop in A.C.'s Alien Nation
