

# Aaron Carter, Let Go

Ha ha ha  
Yea It's so incredible  
Woo woo  
Yea yea yea  
Come On  
I used to love a girl  
Sometimes i still think i do  
Thinkin about her makes me a little crazy (crazy)  
She used to be the world  
How can we be split in two  
We were just like two peas in a pod (pod)  
I'm official losing my mind  
Chasing behind her heart  
This just can't be real  
So i gotta let go, go, go  
Cus she let go, go, go  
So long ago, go, go, go  
It hurts to move on  
But i gotta let go, go, go  
Cus she let go, go, go  
From my mind, my body, my soul  
I gotta let it go  
I tired to play the field  
I lost my share in one of few  
I never really hit without the part  
No, i guess i wasn't here trying to forget the truth  
Live with out you left me with a scar  
I'm official losing my mind  
Chasing behind her heart  
This just can't be real  
So i gotta let go, go, go  
Cus she let go, go, go  
So long ago, go, go, go  
It hurts to move on  
But i gotta let go, go, go  
Cus she let go, go, go  
From my mind, my body, my soul  
I gotta let it go  
So i gotta let go, go, go  
Cus she let go, go, go  
So long ago, go, go, go  
It hurts to move on  
But i gotta let go, go, go  
Cus she let go, go, go  
From my mind, my body, my soul  
I gotta let it go, go, go, go, go  
I gotta let it go, go, go, go, go
