

# Aaron Carter, My Shorty

Hey girl  
Keep your head high  
I never said I  
Wouldn't be back when I'm  
Leaving all the red hots

Gotta do this show so I can get my dough  
Bumped in there low with you and I  
Hookin' up at the house on the top of the hill  
Where we can drop and get ill  
A better spot we can chill  
We'll hide out whenever things get real  
Shorty, wontcha tell me how ya feel  
If I will  
How can I be sure  
If you're lovin' me too  
Well, I gotta go  
Until we get this gig  
Ya just gotta know  
When you're not there wit' me sometimes  
No matter what I try it, it won't go right

My Shorty  
Cuz you got my back  
My Shorty  
We keep it real like that  
My Shorty  
I wanna be red hot  
My Shorty  
That's why I'm gettin' like that

Shorty ain't around  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
Shorty ain't around  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me

Onto a two month 8 weeks 60 days later  
I laid so many groupies off  
One I even made her cry  
I had to tell her I really didn't hit her right  
Couldn't lay out why  
Cuz we had to say goodbye  
I never thought that I  
Would never see that day that I  
Fall for her the way that I did  
So I will say that I  
Never straight cuz I found out better women  
I hold it down and keep it tight  
I could never say goodbye

My Shorty  
Cuz you got my back  
My Shorty  
We keep it real like that  
My Shorty  
I wanna be red hot

My Shorty  
That's why I'm gettin' like that

Shorty ain't around  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
Shortyin' around  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me

My shorty... My shorty... Baby, girl

My shorty... My shorty... Baby, ooh

Shortyin' around  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
Shortyin' around  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me

Shorty ain't around  
(My shorty baby I...)  
I don't feel right  
My shorty  
My baby  
My lady  
Come with me  
(repeat until fade)
