

# Aaron Hall, All The Places (I Will Kiss You)

There's so many places I wanna kiss you, baby, I cannot begin to start  
I realize that I'm not the only man that ever made love to you  
But I'm the only man who knows how to keep you  
Okay, baby, your body's mine, believe it  
All the, the places I will kiss you  
Oh, baby, let me kiss you  
(Please let me kiss you)  
With all my love  
(You know I love you, girl)  
All the  
(Yeah)  
The places I will kiss you  
(All the places)  
Oh, honey, let me kiss you  
(Let me, baby)  
With all my love  
(With all my love)  
Here I am, I'm ready, baby  
My desire is to please you, honey  
I'll concentrate on you  
There's no other who can do what I'll do to you  
Lights down, the mood is right  
Come on over here and hold me tight  
Your body will be turned on till midnight  
(Turned on)  
The spots that make you wet and hot, baby, surrender to me  
All the, the places I will kiss you  
Oh, baby, let me kiss you  
(Yeah, yeah, yeah)  
With all my love  
All the, the places I will kiss you  
Oh, honey, let me kiss you  
(Yeah, yeah, yeah)  
With all my love  
This tastes so good girl, I love it, baby  
You're trembling out of control, honey  
The expressions on your face lets me know  
There's no getting away  
You know I know your erotic zone  
I can hear how I make you moan  
Your moanin' turns me on, kiss your body all night long  
Baby, you know there's not one place I would lay my lips on  
All the  
(All the places)  
The places I will kiss you
