

# Aaron Neville, With You In Mind

(Allen Toussaint)

With you in mind, things just ain't bad as they seem  
With you in mind, I can fill my wildest dreams  
With you in mind, I can do anything, I know I can  
With you in mind  
With you in mind  
With you in mind, I went out looking for the best  
With you in mind, cause you deserve nothing less  
With you in mind, I've done so many things that love can bring  
With you in mind  
With you in mind  
Like a flower drinking from the falling rain  
Or the same rain that could wash it away  
Gives it strength, gives it water  
And before you know, another day  
Like a flower drinking from the falling rain  
Or the same rain that could wash it away  
Gives it strength, gives it water  
And before you know, another day  
Like a flower drinking from the falling rain  
The same rain that could wash it away  
Gives it strength, gives it water  
And before you know, another day
