

Aaron Pritchett, Drivin' Song

I could sit at home another Saturday
And channel surf my life away
Gonna grab my keys, get behind the wheel
Got nowhere to go I just like the way it feels

Cuz life is short and the road is long
I'll be punchin' dials
Lookin' for a drivin' song

Ain't gonna stop for nothing but a tank of gas
Take an old back road that ain't on the map
Gotta little hula dancer bobbin' in my back window
She's gonna stick with me anywhere I go

Cuz life is short and the road is long
I'll be punchin' the dials
Looking for a drivin' song

The hours and the songs and the miles fly by
Got all I need to clear my mind

Turn my headlights off and crank the tunes
The only light I need is that big full moon
And I know soon this night will end
We'll have to head back home but I'll worry about that then

Cuz life is short and the road is long
I'll be punchin' dials
Looking for a drivin' song
