Aaron Shust, Glory To You

Great god of might, great god of wonders giver of life, giver of grace creator of everything before us you had me in mind before the stars were in place

Your love surpasses all by far We're praising You for all you are

The reason we're here and the reason we sing is to thank you oh god and give praise to the king we lift up our hands and we lift up our eyes and sing you are holy

The reason we're here and the reason we sing is to thank you oh god and give praise to the king we lift up our hands and we lift up our minds and we pray that all we do would bring glory to you

father of love. father of mercy what have I done that you would think about me? you've taken my shame, you've taken my sorrow replaced them with life and life abundantly

you can see inside my heart you can see inside my mind So strip away the things that leave me deaf and blind
