

Abaddon Incarnate, Vermithrax

I will make you pay the f**king price
For your filthy way of life
There is only one solution
That is MASS EXECUTION
It makes me sick it makes me hate
To watch you prance like sodomitic apes
The earth will be cleansed of your ugliness
With pride I commit homosexicide

To think they hesited, when they could be satisfied
I will unleash my anger with vast amounts of chemical weapons

Listen to me I have something important to tell you
There is homosexuals crawling in your vicinity
They f**k like rats
They spread Vermithrax
I shall split you all into
Easily prosecutable units
Send you to the death camp
Send you back to your sterile father

To think they hesited, when they could be satisfied
I will unleash my anger with vast amounts of chemical weapons
I have no guilt about this. I shall not hesitate
What justifies this massacre is the fact that
JESUS WAS BENT TOO
