

Abby Travis, 14 Angels

When at night I go to sleep
14 stars outside I leap
Still my eyes are closing
Feel my body's frozen
Safe till dawn I'm singing
When I wake I'm dreaming
Love will shine over us while
We step outside of heaven

What do I do with illusive suggestions and signs?
I love where I am when I'm out of my mind

Dreamed it was my birthday
Towards the end of the earth they
Trembled as they danced around in
Circles made of heaven

Call it abuse
Say I've crossed an imaginary line
I love where I am when I'm out of my mind

When at night I go to sleep
14 angels beside me weep
Moonlight clouds are glowing
As my shadow's growing
Will the dawn come singing?
Will I lose all feeling?
Angels sigh unholy fears of journeys back from heaven
