

# Abby Travis, Bottom Of The Sea

You never give me your love  
And it tortures me  
I dive down from the sun  
Falling endlessly  
To the bottom of the sea

I could swim a thousand miles  
Through the ocean, up the Nile  
Search you out amongst the urchins in the reef  
Who would ever know  
That it's written in the foam:  
This love that is cursed to drown, so it seems  
Throw salt on the wounds of my dreams

All I ever do is dream about you baby  
Drift to me  
I'm an anemone  
Reaching internally

I could swim a thousand miles...

You never give me your love  
And it tortures me  
Now I'm lost at sea  
Floating aimlessly  
Drowning namelessly  
To the bottom of the sea
