

Abdul Paula, Love Don't Come Easy

Abdul Paula

Head Over Hills

Love Don't Come Easy

It all went down at the cantina that she liked

Everyone would watch her as she danced all through the lights

She was the center of attraction in his mind

Maria thought she'd never find a man worth her time

Oooo he came into the room

Oooo she really liked the way that he began to move

They were in the mood for romancin'

There's a fire in little Havana

Flame so hot you can't stand it

Things are getting a little crazy

Someone better tell them that

Love don't come that easy

(I know you're ready boy)

We've got to control all emotions that we're feeling

Love don't come that easy

We've gotta be strong -- swing

We've gotta stay strong -- straight

As he took her in his arms

She got an instant chill

A sense of passion

She thought no one could make her feel

Their bodies moved with such intensity

The lights went down

Made sighs of pleasure

Like there was no one else around

Ooh now she's in the mood

Ooh to show him what she wants to do

She's got him crazy

There's a fire in little Havana

Flame so hot ya can't stand it

Thing's are gettin' a little crazy

Can you feel it -- ooh

Are you ready -- ooh

[Chorus]
