

Abigail, Never Look Back

The first time
I saw you there (with the smile and the look)
With a shake of a finger and the wink of an eye
You took me by the hand to my surprise
I thought to run
And never look back
This conversation's got me waiting for you to make a move
She will always come back
But I will remain
This isn't over yet
This isn't the end
Choose your way
Can't win this time
I figured you out
And now
I thought to run
And never look back (she took my heart away)
She took my heart (away)
And I forgot her
She waved her hands and screamed
Please don't do this
She will always come back
