

Abigail Washburn, Everybody Does It Now

Hear that music nice and sweet
Come on baby let's warm our feet
Everybody does it now, come on let me show you how
Work it Ms Fanny, everybody does it now

Went upstairs to drink some cider
Seen a big bug lovin' a spider
Everybody does it now, come on let me show you how
You'll get real freakish, everybody does it now

Doctors, lawyers, gigolos, cops
all come here to heat their chops
Everybody does it now come on let me show you how
Don't get 'dicted, everybody does it now

Grandpa Jarrell lay me low
I'm putting new tunes in this old banjo
Everybody does it now, let me show you how
Watch'em do the shimmy, everybody does it now

Two time mamas all in dutch
Out the backdoor, men too much
Everybody does it now, let me show you how
Try to catch 'em at it, everybody does it now

Mamas keep their papas broke
and lose them because they lost their stroke
Everybody does it now, come on let me show you how
You really can't blame 'em, everybody does it now
