

# Abigor, Wildfire And Desire

In the ancient tradition of conjuration  
To satisfy my bestial urge  
I raise blackened magic to the heavens, against the light  
So appear and bring forth my desire  
Flesh is the slave - my spirit reigns  
As naked servant to my rite - enslaved creation  
Raging wildfire for ritual soul cremation

No flame burns brighter than desire  
Lust and passion, and pain as sinful gift  
Wildfire in the heart of man - uncontrollable  
I'm the creature set ablaze with God's despised sin

Grant me irresistibility - power infinite  
Let open up the earth to spew whores  
Sexual rites to praise your name  
Sitra! Twelveth of the great! Ioa Sabao!

No flame burns brighter than desire  
Lust and passion, and pain as sinful gift  
Wildfire in the heart of man - uncontrollable  
I'm the creature set ablaze with God's despised sin
