

Above The Golden State, Comeback

Down, down, like an aeroplane
Storm hit with a world of hate
I was holding on
But still falling to the ground
Turn, turn in the hurricane
Wind hit with the heavy rain
You were calling out
But I never heard a sound
And so I'll go back where we started
(Down, down)
I forgot that the heavens are shining for You
Light up my heart like the new day
I never mind if the darkness has to stay, yeah
I'll comeback with a little faith
Burn, burn this consumer's flame
Never thought it could suffocate
Because I can't keep up
And the fire's burning out
The world will never be enough with its know how
What can I get now, I'm sick of all your lies
They're such a let down, it got my head in the clouds
Was lost, then I found Your grace
I'll just go back where we started
(Down, down)
I forgot that the heavens are shining for You
Light up my heart like the new day
I never mind if the darkness has to stay, yeah
I'll comeback with a little faith
I wanna get back, I know when I'm not right
I'll never look back , back on the old life
