

ABS, Angel

Send me an angel let her be someone who loves me just for me just the way i am y'all i dont want to
For someone and lately ive been thinking if your the one i'm seeing in my dreams
Take your time decide i could do with you in my life what i gotta do tell me if im getting through to you
See? everything you want in me with you by my side i'll be anything i want to be
Somebody please help me find her she took my heart and touched my soul i can't let her go baby
When your gone thats why im writing you this song i'm trying to make you feel
Take your time decide i could do with you in my life what i gotta do tell me if im getting through to you
See? everything you want in me with you by my side i'll be anything i want to be

[Chorus]

Angel you're rocking my world angel you're rocking my world it's what you do to me angel you're rocking
Rocking my world

[Chorus]

Angel you're rocking my world angel you're rocking my world it's what you do to me angel you're rocking
Rocking my world

Send me an angel let her be someone who loves me just for me just the way i am y'all i dont want to
For someone and lately ive been thinking if your the one i'm seeing in my dreams love at the door(
(you got me?)
