

Abscess, Lust For The Grave

Lust for the grave

All I see is black and torturous
Darkness take me
Brain is rotten, sewage in my blood
Darkness free me
Alcohol and drugs, obscurity
Call the reaper
Only in the coffin I'll be free
Death my keeper
Moving toward the unlight, fate is sealed
Doom is waiting
Total darkness soon to be revealed
Fill the casket
To the graveyard, never coming back
Feed the maggots

Make me lust for death
Show me the world
And I'll take my last breath
Make me lust for death
Take me to the end
It's all that's left
