

Absent Element, Keep Me Close

Look at me, I'm so far away
Out of the way of rain
Far from the pain
Well, if you see me in your
Dreams would you still believe
All that you see?

Well, don't leave me out
Don't leave me out
Even though I'm not there with you
It's good to keep me close

Never thought that it would come to this
That I would be so missed
So quickly dismissed
I want nothing more than to be with you at home
I know it's been so long
And what I did was wrong

Well, don't leave me out
Don't leave me out
Even though I'm not there with you
It's good to keep me close

Closer to your skin, you've
Gotta keep me deep within
Cause where I am right now
I couldn't need you more
Close enough to see, close enough
To hear you breath, close enough
To feel the warmth of you
Because I'm so cold

Well, don't leave me out
Don't leave me out
Even though I'm not there with you
It's good to keep me close
