

# Absu, An Equinox Of Fathomless Disheartenment

Ecliptic sects are obtained by fluxions  
Phenomenon of the Holy Qabalah will  
Intervene with the serpent of Daath  
The inmost godhead of Phallus  
Deems the temperament of Kan and Yi King  
Ancient attitudes of equipoise  
Drastic seasons of ceremonial permutations  
There is not a creation in the firmament  
The direction to conduct an angels choir  
I'm still pleading to the heinous-eyed cherubim  
To see this bemired vesture of waste  
Equinox!  
You are the force of Lotus  
And the Path of live  
The venus in my cancer  
And consolidation of the dyad  
You are the strict joy of ecstasy  
And the power of yellowish light  
Luster the garden of Kundry and cover Laetitia
