

# Absynthe Minded, Attitude Gratitude

Teenage phenomenon  
We got plenty of where  
Those came from  
With your mechanical flattery  
You're trying to blind me

Willing and able  
Those people got  
Caught up with the devil  
And then they go  
Searching for the lord

Attitude gratitude

Look into my eyes  
Like a boxer  
You anticipate  
I radiate a certain cool

Remember the days  
We spent on  
The brink of finding  
Something new  
In our backyard
