

Absynthe Minded, Attitude Gratitude

Teenage phenomenon
We got plenty of where
Those came from
With your mechanical flattery
You're trying to blind me

Willing and able
Those people got
Caught up with the devil
And then they go
Searching for the lord

Attitude gratitude

Look into my eyes
Like a boxer
You anticipate
I radiate a certain cool

Remember the days
We spent on
The brink of finding
Something new
In our backyard

Attitude gratitude
