

Absynthe Minded, It's All Around You

I've been riding this old road
A long long time,
I made it mine
You've accompanied me and
You proved your point
You're all alone like that
Your kingdom's wide
All is right
It is your mind
Can't you see that you're the one
Who's left behind
You can't catch up with us
Youth
You must
Confuse me with
Someone else
Mistrust
It's all around you

If you take a look outside
You'll find it out
The world is blind
Everybody's acting
Like a citizen,
A childish thing to do
When you lose
Don't take the blame
There's got to be a reason
Not you my friend
It's all around us
Youth
You must
Confuse me with
Someone else
Mistrust
It's all around you

Can't you just talk in
My face and say it loud
What it's about
It's no use to hold it back
There's always
Someone listening to you
And your complaints
Faint smile
Big now reason
Not you my friend
It's all around us
Youth
You must
Confuse me with
Someone else
Mistrust
It's all around you
