

# AC/DC, Crabsody In Blue

(Young, Young, Scott)

Well they moved on down  
And they crawled around  
Walking sideways  
Sideway walking  
Give me the blues

And you start to scratch  
When they start to hatch  
Walking sideways  
Sideway walking  
Give me the blues

But when they start to bite  
Then it's time you set alight  
For an appointment  
Before you start to scream  
That's when you apply the cream  
Blues ointment

Well the doctor said  
"We got to make 'em dead";  
Walking sideways  
Sideway walking  
Give me the blues

And when you start to scream  
That's when you apply the cream  
Blues ointment  
And when they start to itch  
You go out and you take a bitch  
For an appointment

Well you rub it on  
And you rub it in  
Stops them walking  
Sideway walking  
Gives them the blues

Sideway walking  
Sideway walking  
They got the blues

You give them the blues  
They got the blues  
You give them the blues
