Show Business

You learn to sing

You learn to play

Why don't the businessmen

Ever learn to pay

That's show business (Show business)

Show business (Show business)

Show business

That's the way it goes

You play in halls

Play in bars

You're climbin' walls

Chasin' stars

That's show business (Show business)

Show business (Show business)

Show business

That's the way it goes

You pay the man

You pay your dues

When it's all gone, ooh

You sing the blues

Show business (Show business)

Show business (Show business)

Show business

That's the way it goes

You wanna roll

You wanna rock

You find it hard

If your guitar's in hock

That's show business (Show business)

Show business (Show business)

Show business

That's the way it goes

You're smoking butts

They smoke cigars

You're drown in debt

They drown in bars

That's show business (Show business)

Show business (Show business)

Show business

That's the way it goes

You pull a chick

Take her home

No use, man

You're worn out to the bone

That's show business (Show business)

Show business (Show business)

Show business

That's the way it goes

That's show business, show business

That's show business, show business, show business
That's the way it goes
Know what I mean
