

Acappella, Walking That Line

I will hold up my head
Proudly march where I am lead
Now that I see the way
I'm walking it day by day
I will not fear this road
Gladly I'll bear this load
And I will not think twice
Because I am walking with Christ

Chorus:
I'm walking that line - never look back
I'm walking that line - I'm on the right track
I'm never alone - He's holding my hand
And everything's fine cause I'm walking that line
To the promised land

Why don't you walk with me
Travel eternity
Staying within His light
Keeping the end in sight
We will not go astray
Together His will obey
And we will win the fight
We are walking with Christ

Repeat Chorus

Bridge:
Though my feet may often stumble
I will not be down for long
He has called me to commitment
And my resolutions strong
So when satan clouds the vision
And his poison darts are thrown
I will look back at these challenges
Just to see how much I've grown

Repeat Chorus

I'm walking that line - never look back (Don't look back now, keep your eyes on the Lord)
I'm walking that line - on the right track (Stay on track now)
I'm never alone - He's holding my hand (Let Him take ahold of your hand now)
And everything's fine cause I'm walking that line
To the promised land

And everything's fine cause I'm walking that line
I'm walking that line (walking that line)
