

Accept, Head Over Heals

Late at night in the park
I saw them slipping in the dark
For heaven sake whats going on
Its like someone is here
Gotta follow now
Like being in a trance for me
Theres silence here
More than all the noise
Spurting in the dark head over heels
Overheated heart head over heels
Treating it so hard the spurting feels
Everyday, every night
Spurting in the dark head over heels
Overheated heart head over heels
Treating it so hard the spurting feels
Oh yeah
Down on my knees, God help me please
Gotta know whos out in the dark
Ive stopped my breath, can feel the hands
Could hear the sound of people making love
I surrender right now
Ive to be touched I feel so much
Spurting in the dark head over heels
Overheated heart head over heels
Treating it so hard the spurting feels
Everyday, every night
Spurting in the dark head over heels
Overheated heart head over heels
Treating it so hard the spurting feels
Yeah
Spurting in the dark head over heels
Overheated heart head over heels
Treating it so hard the spurting feels
Everyday, every night
Spurting in the dark head over heels
Overheated heart head over heels
Treating it so hard the spurting feels
Everyday, every night
Spurting in the dark head over heels
