

# Accept, Prejudice

We grow and fertilize the semen of hate  
Ignoring our ignorance - daring our fate  
Predictions were made - generations were lost  
While the seed is growing day by day in front of us

We buried tolerance and our respect  
Became a breeding ground for social dismay  
Whatever happened to the love-generation  
With black and white hand in hand side by side

So preacher don't you preach  
Hey teacher don't you teach

Prejudice - stop the hate  
No more prejudice - I ain't losing my faith  
Prejudice - stop the hate  
No more prejudice - I ain't losing my faith  
If we could manage just to get along  
Instead of blaming each other for what's going wrong  
Education is the secret - the future's in our hands  
Burn the fields of hate and believe again

Teacher don't you teach  
Preacher don't you preach  
So teacher don't you teach me  
Hey preacher don't you preach

Prejudice - stop the hate  
No more prejudice - I ain't losing my faith  
Prejudice - stop the hate  
No more prejudice - I ain't losing my faith  
Prejudice - prejudice

Judging one another by the colour of skin  
Carefully covering our feelings within  
We solve our problems with a kick in the face  
We're living in a world judged by colour and race

So preacher don't you preach  
Hey teacher don't you teach me
