## Accept, What Else

Heroes - keep dying Nations - dividing Principles - they're gone It's war

Wallstreet - buy in politics Jesus - up for sale Do anything - for money I'm a whore

What else - what's in it for me What else What else - what's in it for me What else

Deadlines - headlines Make me - the biggest star I don't need personality cause it's war

I'm greedy - I'm deadly Don't give a fuck anymore Anything for money I'm a whore
