

# Acceptance, This Is Only A Test (Live)

Seven times eight move faster  
Faster than all eyes can tell of me  
Keep till the morning  
Somedays, I suggest- each day  
To say your prayers to you  
Say your prayers for you  
What you want instead  
These are the days that we gave hope  
Hoping for the best  
These are the days that we gave hope again  
I have to say that I love you  
I love you still  
This lie is coming and breaking bombs in holders  
Throwing stones at her house  
You cried, you tried  
Tell us what we want to hear  
Is it something that you fear?  
These are the days that we gave hope  
Hoping for the best  
These are the days that we gave hope again  
I have to say that I love you  
I love you still  
This is ever true  
After I lose it, did you think it through?  
These are the days that we gave hope  
Hoping for the best  
These are the days that we gave hope again  
I have to say that I love you  
I love you still  
This is ever true.
