

Ace Frehley, Words Are Not Enough

Can't stop tossin' and turnin' at night
It gets harder each day, fighting with this feeling inside
You can swear that you love me
By every star in the sky
But when you're close to me
You get that look in you eye
A burning feeling, you just can't disguise

CHORUS:

Words are not enough, to make me feel like a man in love
Words are not enough, to make me feel like a man in love
We need eachother its easy to see
You know I'm shaking all over thinking how good this could be
You can tell me you need me
And you can tell me you're mine
But when you're in my arms
The words starts spinning and we lose all track of time

CHORUS
