

Ace Of Base, Hey Darling [Brunner Version]

Have to tell you 'bout the world
Have to tell you today
Believe me now
Be - Be- Believe me now
You'd better believe in angels
There's no other substitute
We all do that before we're going up in the sky
If your lovin' is in your money
Know they cannot hug you back
This is the sound of the world
I know, I see, I do, I say
Hey darling
Have I told you 'bout the rest of the world?
Hey darling
Why don't you see you're gonna twist and curl?
Take a look around
Take a look around
You're going to be burned out and
You must blame it on yourself
You're burning your candle both ways
That I learned from my past
Quench your thirst with mem'ries
There's no point in being stressed
That is the thing I have learned
I've done, I've been, I've seen all that
Hey darling
Have I told you 'bout the rest of the world?
Hey darling
Why don't you see you're gonna twist and curl?
Take a look around
Hey darling
Have I told you 'bout the rest of the world? (take a look around)
Hey darling (ah uh)
Have I told you 'bout the rest of the world? (have to tell 'bout the world)
Have to tell you 'bout the world
I'm never gonna change my mind
Have to tell you today
No, I'm never gonna change my mind
Believe me now
Be-be-believe me now
Hey darling (have to tell you today)
Have I told you 'bout the rest of the world?
Hey darling
Why don't you see you're gonna twist and curl? (have to tell you 'bout the world)
Hey darling
Hey darling (have to tell you today)
Hey darling (ah uh)
Hey darling
Have to tell you 'bout the rest of the world
