

Ace Of Base, Just 'n' Image

Ace of Base

Bridge

Just 'n' Image

I'm driving through the night

I'm driving through the rain

The engine roars i'm on my

Way from mr. pain

My eyes keep seeing what

My mind was to forget

Those sequences they

Rock n' roll inside my head

Over and over and over again

I concentrate harder and harder and then

You are just an image (that i can see)

You are not for real

You turn into a picture of somebody

Someone i don't know

Someone i don't feel

(...just an...)

The wolves cry out tonight,

I see your broken line

The sun will rise without

A love without a smile

I always think about

The way you had to leave

I close my eyes

'cause i was with you

By that time

Faster and faster and faster ahead

As if you were waiting

For me down the way

I have never seen you

Lying on the floor

Crying needing more
