

Ace Troubleshooter, Hey There Girly

Hey there, hey there girly
You're always on my mind
And it's too bad we can't go out
And do stuff all the time
You gotta know that you are
My one and only girl
And together we will make
The cutest couple in the world

Now don't you have no doubts
Cuz you know we can work it out
And you will always be my girl

I fell in a pile of you and got love all over me
And you know you will always be my girl
