

Ace Troubleshooter, Jasmine

It has been way too long since back when
Jasmine Ive been wrong
Ive been wrong about nothing

Youre still the same, I wish you changed
Its still your game by your rules
And I will never learn nothing
And nothing ever changes

Youre asking me to go to an ordinary, satisfactory
Almost paradise

Staying round you
Hanging round you Jasmine
With the sound of our straws
Sipping down Yoohoo

You tantalize, I fantasize
And in your eyes is the world
When all else fades into nothing
Im the proof youre beautiful
When youre aloof I get dumb
And I cant think about nothing else
And nothing ever changes

Youre asking me to go to an ordinary, satisfactory
Almost paradise

Staying round you
Hanging round you Jasmine
With the sound of our straws
Sipping down Yoohoo

Loves a beehive of honey and stings
And I dont care if I never learn nothing

Staying round you
Hanging round you Jasmine
With the sound of our straws
Sipping down Yoohoo

And I dont want anyone else
To mesmerize me, Jasmine
