## Ace Troubleshooter, Tempest

Dont touch this Just look and feel your way through Cant tough this tempest just yet

The hopes and fears in the sirens sounding Beating hearts, tears as the rain starts pounding

Comfort in stereo sirens warning Still fighting, white lightning blinding, storming

Its not in me, but III recover it Its not in me

Go run and hide as the storm comes in Its never enough III be alright and I wont let it in

Standing ground, standing with sirens waking Firmly rooted, ever bending, never breaking

Its not in me, but III recover it Its not in me

Go run and hide as the storm comes in Its never enough III be alright and I wont let it in
