

# Ace Young, The Girl That Got Away

I ran into you  
Like a deja vu, but ive never seen your face  
when I heard your voice above all the noise  
i felt so out of place  
it was make or break why did i hesitate  
i didnt know just what to do  
(i had) one chance  
(i had) one shot  
i shouldve walked right up to you

CHORUS:

I didnt even know your name  
why did i look you in the eyes  
and now ill never be the same  
it was an ordinary day  
was it my loneliness inside  
that put you deep into my mind  
now i cant forget, the girl that got away

it was the month of may  
its been a year today  
since you ran off with my life  
goin through my head,  
the notes i couldve sent, 365 goodbyes  
(i had) one night  
(i had) one touch  
oh, shoudve tried to make you mine

REPEAT CHORUS

to whom it may concern,  
would you please return,  
ive got so much more to say  
if i got it wrong, can you pass it on  
to the girl that got away

REPEAT CHORUS
