

Acel Bisa, Stars

I am here asking why
It didn't happen the way I planned it
I can't understand why
But I have to face it so I could fly
In the night when stars are not bright
It's so quiet... I kneel as we communicate
I pray and call on your name
You're my star that shines bright
There may be trouble
These things that only you can handle
There is no time to fret
Coz I can do it if we're together
In the night when stars are not bright
It's so quiet... I kneel as we communicate
I pray and call on your name
You're my star that shines bright
You're my star that shines bright
