

Acetone, All You Know

All you know
Has just slipped away
Still you go on
Waking up each day
How'd you get
Into this state?
Countless hours
With no end in sight
Counting promises
That turned into lies
Everyone
Got in your way
Everyone
Got in your way

Countless hours
With no end in sight
Counting promises
That turned into lies
Everyone
Got in your way
Everyone
Got in your way
