

# Acetone, All You Know

All you know  
Has just slipped away  
Still you go on  
Waking up each day  
How'd you get  
Into this state?  
Countless hours  
With no end in sight  
Counting promises  
That turned into lies  
Everyone  
Got in your way  
Everyone  
Got in your way

Countless hours  
With no end in sight  
Counting promises  
That turned into lies  
Everyone  
Got in your way  
Everyone  
Got in your way
