

# Acetone, No Need Swim

I'm a molecule of water  
Flying over niagara falls  
While my world is flowing down  
To the sea

I'm the ebb and flow of the ocean  
She's the magnetic pull of the moon  
And all the stars are falling down

Around me

I'm a molecule of water  
Flying over niagara falls  
And all the walls are falling down  
In my mind  
In my mind  
In my mind
