

Across Five Aprils, Snowy Road To Hazard

The road is getting longer
And I'm sure these miles are unforgettable
I've learned a lot about who you are and who you're not
It's sickening

Late nights and rocks on the rooftops
We've come so far from that
Did you ever think this game would catch you
You're no different than the rest of them

We're not your ride we're not your boys
So save your stories our ears are closed

It's not your face I hate but what's going on behind it

Sure you had us fooled for such a long time
But our eyes see different now
