

# Action, Warzone

I change the channel but the  
News reports ring in my head  
Close my windows but the sirens,  
They come back again  
This city declines more every day  
And we all know where to point,  
When we point the blame

[Chorus]

IT'S A WARZONE

AND IT'S WHERE WE LIVE

Modern solutions to the problems

We face each day

Create another ghetto,

From which we all can stay away

Crime rate explodes, as the schools

Become our battle ground

This is our future,

And I think we're going down

[Chorus]

THERE'S NO HOPE
