

# Acumen Nation, Mike (Remix)

it seems that i have found mr. razor, only i don't die  
in fact it keeps my soul alive  
it's like you said it was, except without the pain  
you know i'd feel it all, for you

where is my, where is my  
where is my, where is my  
where is my, where is my.. thorazine?!  
it's like you said it was, except without the pain  
you know i'd feel it all, for you

running screaming fasting dreaming lest the world reclaim its prize  
i remember the grave and all its lies  
in order to feel more, smash more, break more  
kill more, rape more, burn more, be more, i am more

where is my.. where is my.. where is my..  
where is my.. where is my, where is my  
where is my, where is my, where is my  
where is my, where is my.. thorazine?!  
it's like you said it was, except without the pain  
you know i'd feel it all, for you  
in order to feel more, smash more, break more  
kill more, rape more, burn more, be more, i am more  
i am more, i am more, i am more
