## Adagio, Introitus / Solvet Saeclum In Favilla

Ashes surrounding me Nothing else, but darkness, blood and pain My determination will prevent you to outlast

After so many years of disgrace I feel my hatred becoming mightier Corrupt your soul, I will Never ending my pervert plague to flow

Spread your wings and follow me higher Leave the dark beyond, repent you Sinner

Leave our souls in peace and pray for us to die bravely, O lord I've sinned Salvation, wisdom and Forgiveness I dedicate my death to implore your pardon I can't find my way, tracked down by my fate

Reign over the world I will The mandrakes of death I will seed I'll kill and probably I bleed Spreading impureness on your fields

Spread your wings and follow me higher Leave the dark beyond, repent you Sinner

Leave our souls in peace and pray for us to die bravely, O lord I've sinned Salvation, wisdom and Forgiveness I dedicate my death to implore your pardon I can't find my way, tracked down by my fate
