

Adam Brand, Big Old Car

This big old car, gonna take us home
This big old car, gonna take us home
Gonna take us home to what we know so well
This big old car gonna take us home

Gonna take us all the way to Brisbane
All the way to Cairns
Back across to Katherine
To the Fitzroy River sands
Gonna see the Indian Ocean
And we'll turn around and then
This big old car's gonna take us home again

Ain't got no rattle free transmission
Ain't no good around the town
There's no fitted air conditioning
We just roll the windows down
And throw another tape in
And turn it up and pray
This big old car gonna take us all the way

This big old car gonna take us home
This big old car gonna take us home
Gonna take us home to what we know so well
This big old car gonna take us home
This big old car gonna take us home
Gonna take us all the way and back
However far we roam
Take us all the way to
Chroma plated big V8'd heaven
This big old car's gonna take us home again
