

# Adam Brand, She's Country

She was born out in the sticks  
In the drought of '76  
Pulled the wings off bugs for kicks  
She's country  
Learned to drive in a beat up hack  
Shotgun and an old bashed hat  
Chasin' roos and razorback  
She's country

She'll look you in the eye  
Work all day and dance all night  
Drink the whole bar dry  
Hot days you can find her there  
Lying by the lake and she don't care  
Wearin' nothin' but her long dark hair  
She's country

She's country certified  
Country 'till the day she dies  
She's country born and bred  
She's country as it gets

Grew up fast in '89  
Helped her Ma keep the farm alive  
The year her daddy died  
Put a roof on the old hay shed  
Fixed the truck when it blew a head  
Hung in when she was over it  
She's country

She was born out in the sticks  
In the drought of '76  
She'll never call it quits
